

**Suntuf, Inc.**

Kutztown, PA

**SUNLITE® Panels and SunSky® Sheets**

Suntuf, Inc., manufactures and supplies a complete assortment of translucent and opaque plastic building materials for a wide range of commercial, residential and industrial applications.

**Product Description, Applications****SUNLITE® MULTI-WALL STRUCTURED POLYCARBONATE PANELS**

SUNLITE® is a multi-wall structured polycarbonate panel, UV protected (co-extrusion) on one side. Offering high architectural versatility, SUNLITE panels are suitable for a wide variety of applications, including conservatories, civil engineering and industrial skylights, greenhouses, D.I.Y. (verandas, carports, patios, etc.), swimming pool covers, sunrooms, covered walkways, illuminated signs and false ceilings, partitions and cladding.

**SUNSKY® POLYCARBONATE SKYLIGHT AND SIDELITE SHEETS**

SunSky® corrugated polycarbonate sheets constitute high performance glazing that stands up to punishing exterior applications and matches most metal roof profiles. SunSky is designed for use as skylights on corrugated metal roofs and as ridge lighting and vertical wall glazing. SunSky retains its impact properties over a wide temperature range while meeting building code requirements. SunSky sheets form a complete shield against harmful UV rays while admitting most of the visible light and preventing heat loss at night.

**Features, Advantages****SUNLITE**

- High impact resistance
- Stronger, safer and lighter weight than glass
- Outstanding insulation and structural properties; promotes energy savings
- Excellent light transmission (up to 82%)
- Wide service temperature range (-40 - 250 degrees F (-40 - 121 degrees C))
- Good fire resistance with no emission of toxic gasses; self-extinguishing

**SUNSKY**

- Excellent impact resistance
- Easily and safely installed
- Can install over existing metal roofs
- Hail and wind resistant
- Dade County, FL, approved in material testing
- UL 580 Class 90 recognized and classified

**Colors****SUNLITE**

- Clear
- Bronze
- Opal
- Sky blue
- Sea green

**SUNSKY**

Colors available in 9" (229 mm) and 12" (305 mm) profiles include:

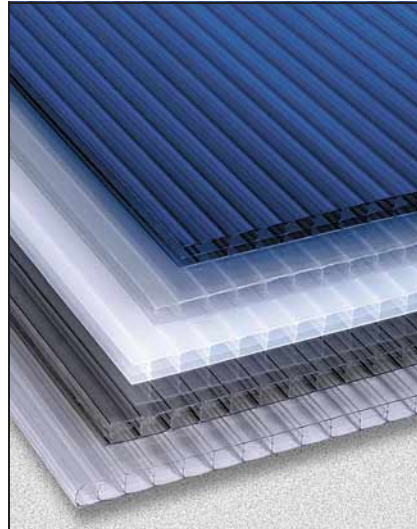

- Clear
- Soft white
- Solar control metallic silver
